ACHTUNG

Lesen Sie die Montageanleitung sorgfältig durch, da sonst der Garantiesanspruch bei unsachgemäßer Montage erlischt.

Gebrauch

Dachrinnenadapter für die Montage der FIAMMA F45/50 Markise auf ERIBA-TOURING Caravan

Position der Markise

- Bei der FIAMMA werden 2 Stützen an die Seiten montiert und eine in der Mitte.
- Verschieben Sie die Stützen eventuell etwas, so dass diese nicht vor dem Fenster oder vor der Tür montiert sind.

Befestigung der Stützen

- Befestigen Sie die Stütze an die Dachrinne wie in Abb. 4.
- Hängen Sie die Markise auf die Stützen.
- Bohren Sie die 3,5 mm große Löcher in die Dachrinne und die Wand. Ungeben Sie diese mit Silikonpaste und Schrauben (fig.9)

Befestigung der Markise

- Bohren Sie ein 6,5 mm großes Loch durch die hintere Seite vom Kastenprofil und durch die Stütze. Bohren Sie dieses Loch auf die Höhe wie angedeutet in Abb.16
- Schrauben Sie jetzt die Markise mit den Schrauben an.

Bemerkungen zum Gebrauch

- Siehe Gebrauchsanleitung der FIAMMA
- Kontrollieren Sie regelmässig die Befestigung am Fahrzeug.

ATTENTION

Lisez ces notices attentivement. Un montage incorrect annule toutes les clauses de garantie.

Emploi

Adaptateur pour montage des stores FIAMMA F45/50 sur gouttière de la caravane ERIBA- TOURING.

Position du store

- Pour les stores FIAMMA, 2 supports se positionnent à chaque extrémité du store et un support au milieu.
- Déplacez légèrement les supports de façon à ce qu'ils ne gênent pas l'ouverture de la fenêtre ou de la porte, si nécessaire.

Fixation des supports

- Fixez le support à la gouttière selon la figure 4.
- Accrochez le store aux supports.
- Percez des trous de dia. 3,5 mm dans la gouttière et la paroi et bouchez-les d'une pâte de silicone (fig. 9).

Fixation du store

- Percez à travers la partie arrière du caisson et à travers le support un trou de dia. 6,5 mm. Percez ce trou à la hauteur indiquée sur le dessin (fig. 16).
- Fixez avec les vis.

Remarques pour l'emploi

- Voir la notice d'emploi livrée avec le store FIAMMA.
- Contrôlez régulièrement la fixation des supports à la caravane.

ATTENTION

Read these installation instructions carefully. Improper installation annuls the warranty's clauses.

Use

Adapter for installing FIAMMA f45/50 awnings on ERIBA-TOURING caravan rain gutters..

Positioning the awning

- For FIAMMA awnings, two brackets are to be positioned at both ends of the awning and one in the middle.
- If necessary, move the brackets a little so that they don't interfere with the window or the door.

Fastening the brackets

- Fasten the bracket to the rain gutter as shown in fig. 4.
- Hang the awning on the brackets.
- Drill 3.5-mm diameter holes through the rain gutter and wall (fig. 9) and put silicone all around them.

Fastening the awning

- Drill a 6.5-mm diameter hole through the back of the case and the bracket. Drill the hole at the same height as shown in fig. 16.
- Fasten the awning with the screws

Remarks regarding use

- Follow the instructions for use furnished with your FIAMMA awning.
- Check on a regular basis that the brackets on the caravan are securely fastened.

ATTENZIONE

Leggete le istruzioni attentamente. Un montaggio inappropriato annulla le clausole di garanzia

Utilizzo

- Adattatore per montaggio delle verande FIAMMA F45/50 sul gocciolatoio della caravan ERIBA-TOURING

Posizione della veranda

- Per le verande FIAMMA, 2 supporti si posizionano ad entrambe le estremità della veranda ed una nel mezzo.
- Se necessario, spostate leggermente i supporti affinché non interferiscano con la finestra o la porta del mezzo.

Fissaggio dei supporti

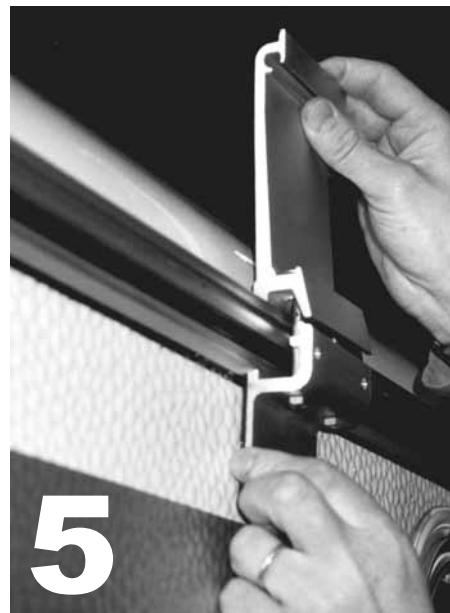

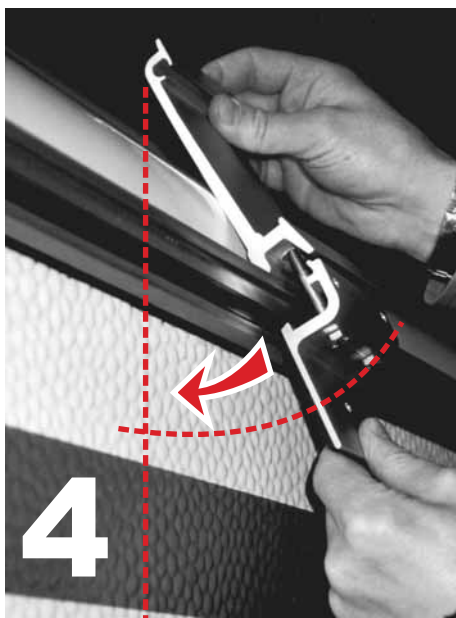

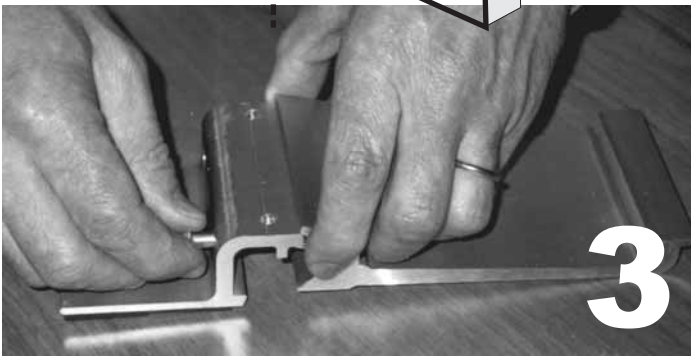

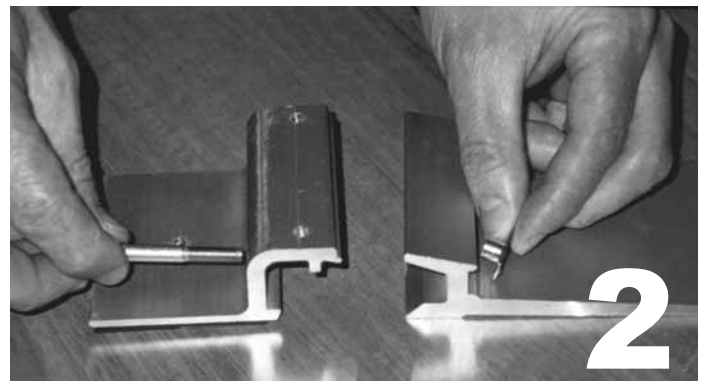

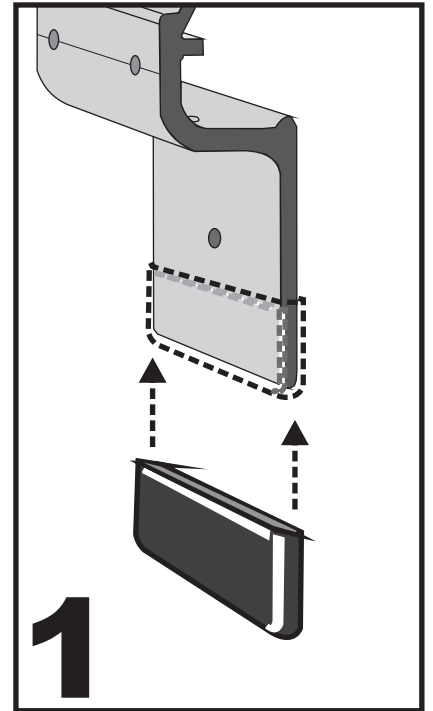

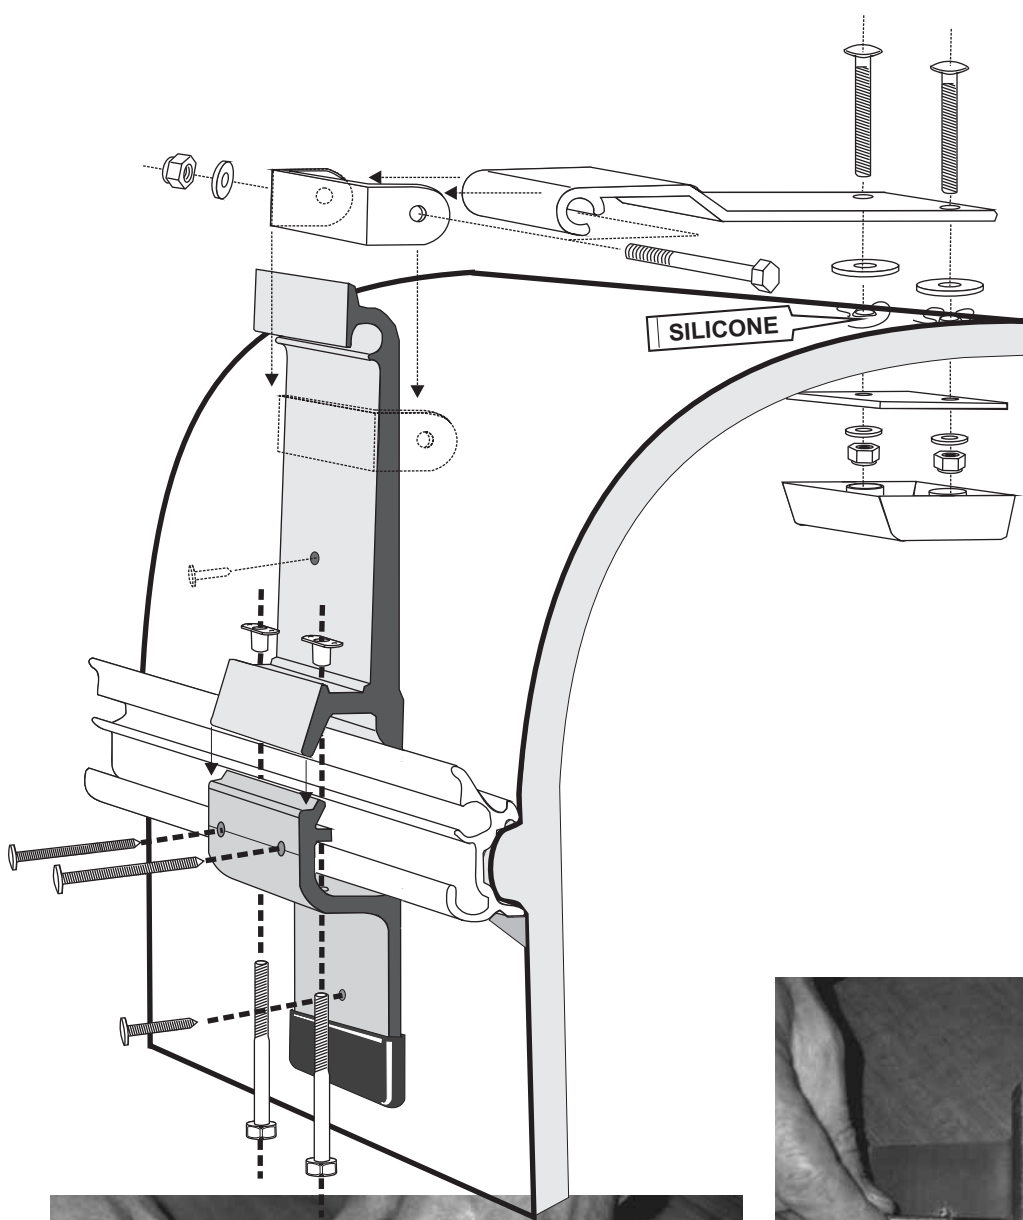

- Fissate il supporto al gocciolatoio secondo la fig.4
- Agganciate la veranda ai supporti.
- Fate dei fori di diam. 3,5mm nel gocciolatoio e nella parete e mettete del silicone tutt'attorno (fig. 9)

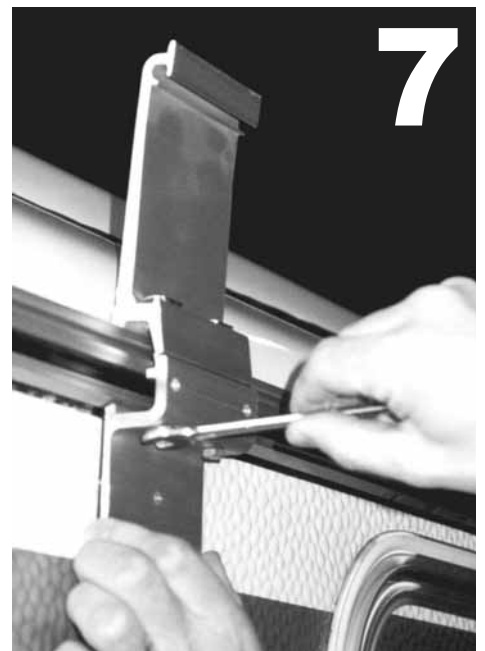

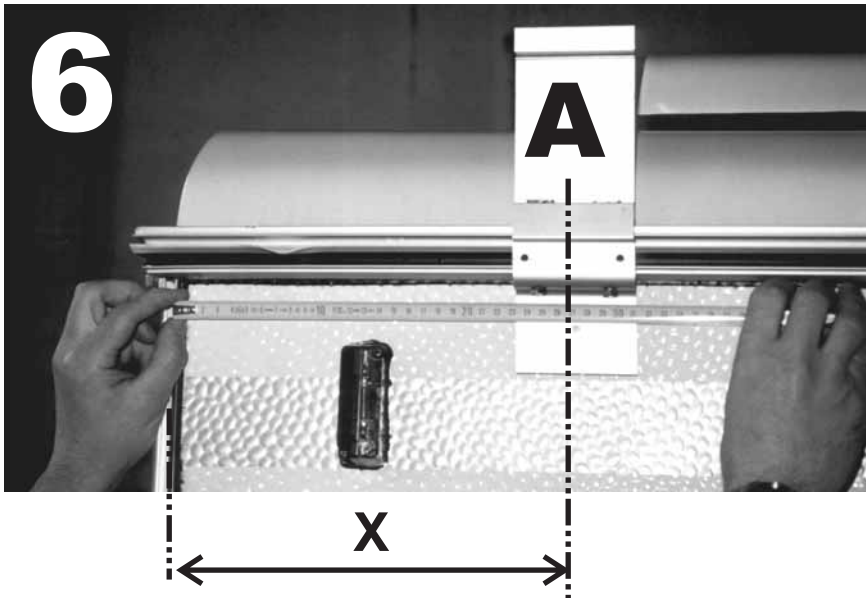

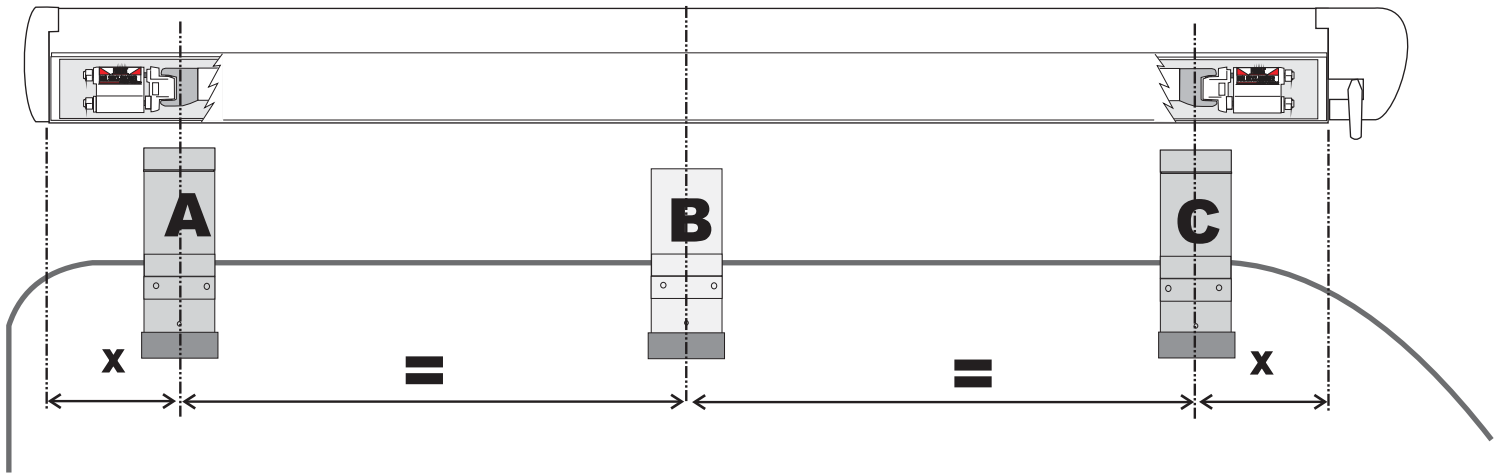

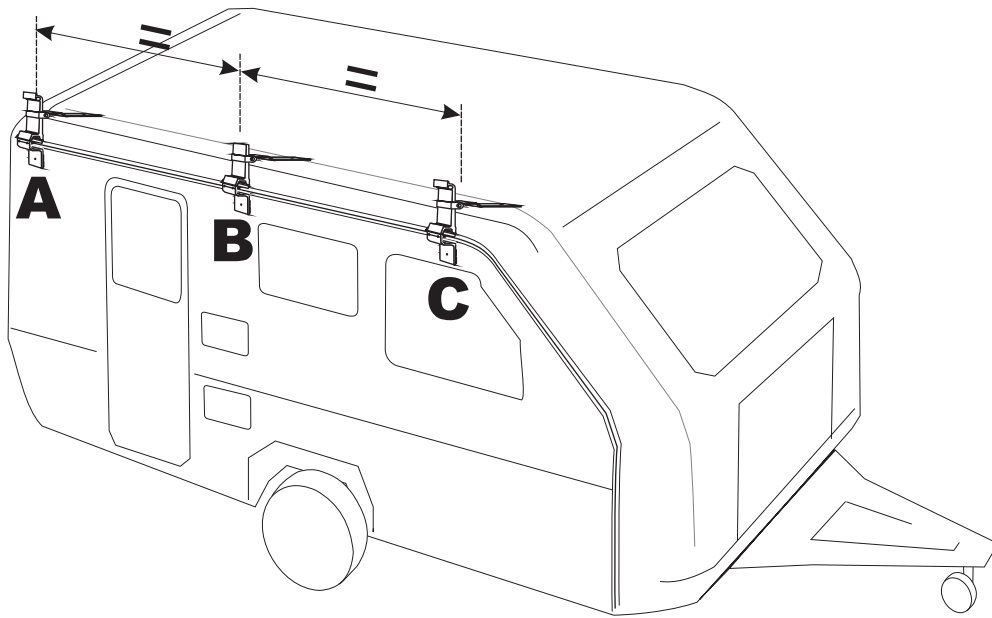

Fissaggio della veranda

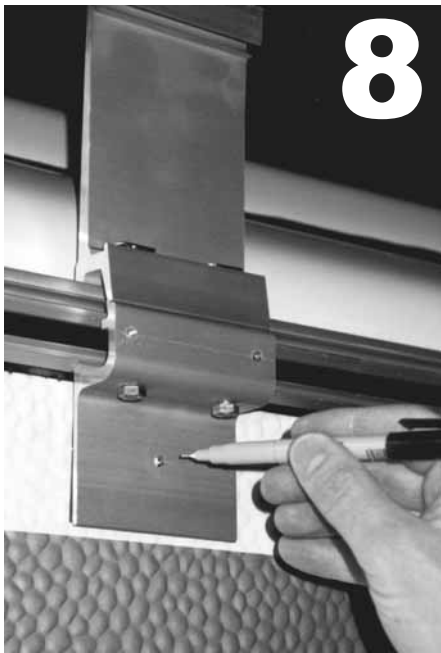

- Praticate un foro di diam. 6,5 attraverso la parte retrostante del cassonetto e attraverso il supporto. Fate il foro all'altezza indicata sul disegno (fig. 16)
- Fissare con la vite

Notizie per l'uso

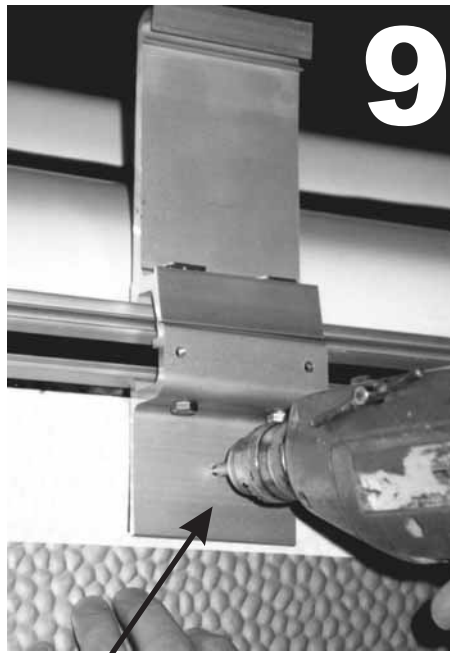

- Seguite le istruzioni d'uso consegnate con la veranda FIAMMA.
- Controllate regolarmente il fissaggio dei supporti alla caravan.
